Global SC Summit Overview

- Around **300** Industry Attendee
- **50+** Speakers
- **100%** Attendee from Global Leading Brands
- **65%** Attendee come from End Users,
- **80%** Director, Head, Lead or Higher Levels Above
- More Than **35** One to One Meeting Arranged
- **4** Panel discussions, **8** Round Table Discussions
- **8** Sessions

8 Sessions

Rethinking the supply chain in manufacturing is a must at the digital era along with the industry transforming and innovating; new manufacturing is intelligent manufacturing that collects data through artificial intelligence algorithm in the whole Internet of things, finally formed a highly flexible, personalized and networked production chain. The new manufacturing requires new supply chain.

- ▶ Manufacturing Strategies

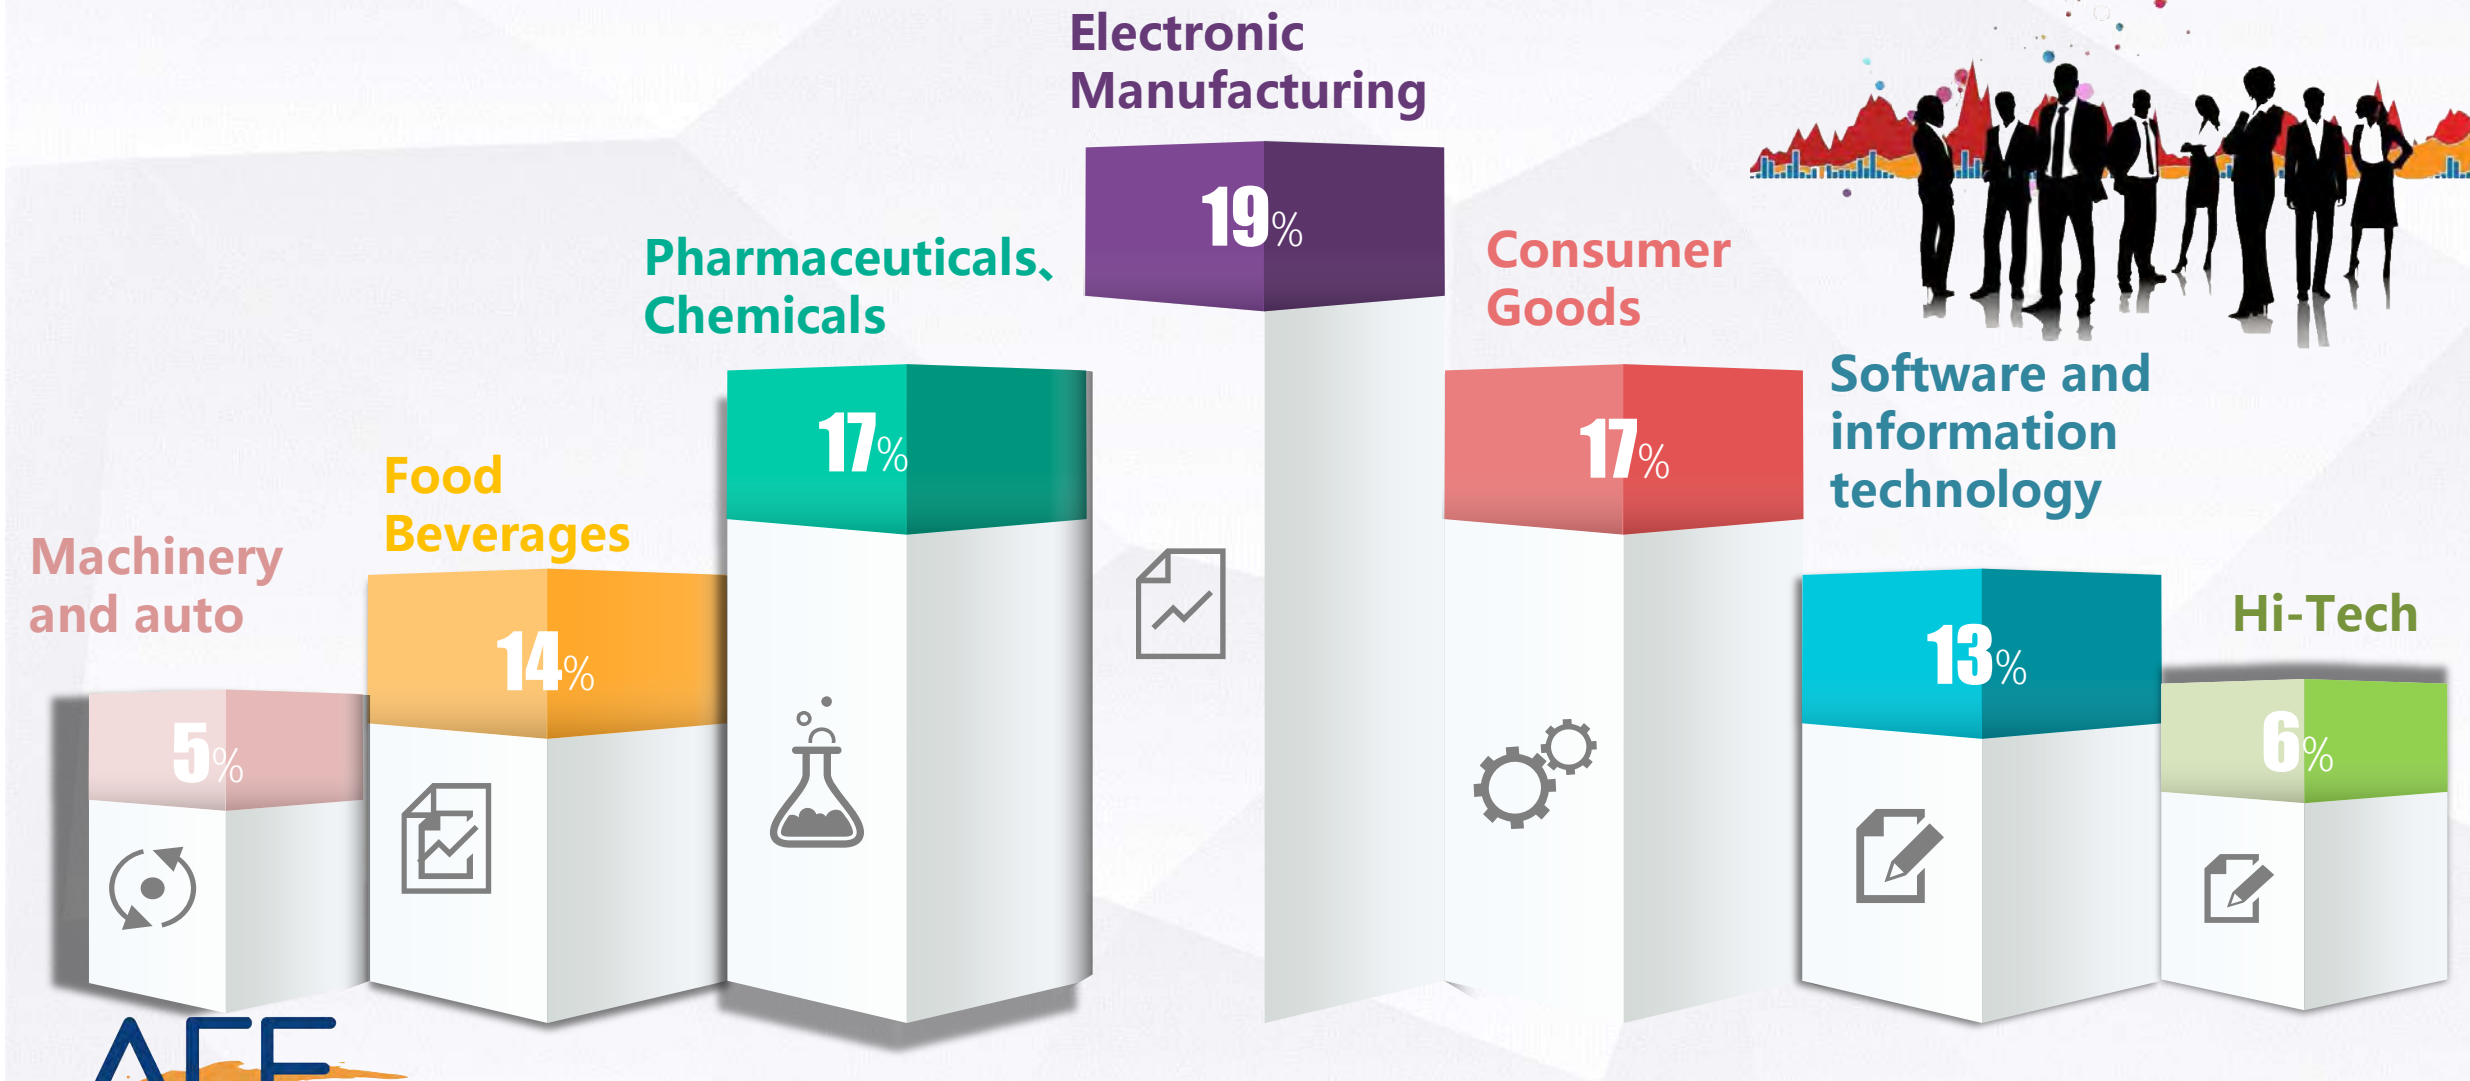

P&G Casy Study:Creating 'Thinking Supply Chain' Leveraging Technology

- ▶ Changing retail landscape and its impact on FMCG Manufacturer's supply chains

Suvery Results from the Attendee

Profile of the companies

Some Representative Comments

Great event to network with senior level supply chain professionals and learn the latest trend.

Hugh Yu, Managing Director, APAC

Liquidity Services

This was really insightful conference and good networking platform across All Industries where we can see real life success story and learn from same.

Umesh Pandit, Global Category Manager

The Goodyear Tire & Rubber Company

It is an excellent event to bring together people related to supply chain so that best practices can be shared and learnt.

Vimal Narayanan, Vice President Supply Chain deployment EAJP

Schneider Electric

It has been a great pleasure to connect and share ideas and strategies with the various people and companies on how to innovate our SC. And even more, on how to innovate our businesses through supply chain.

Andreas Kreitz, VP Medical Devices Supply Chain APAC

Johnson & Johnson

It was a good Summit. I liked the fact that there were speakers from many industries and hence, it provided a good overview on how industry is marching towards the 4.0 journey. To one of the questions from Mr Desai towards the end on whether the sessions should have been more detailed - I believe the current format was good for a Summit.

Neelaksh Goyal, Leader - Strategic Projects

SC Johnson

Leading Speakers

Andreas Kreitz
Vice President, Medical Devices
Supply Chain APAC
